

SAFETY DATA SHEET

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Aquage Finishing Hairspray
Other Means of Identification: Aquage Finishing Spray 80% VOC
Product Type: Hair Spray; aerosol
Recommended Use: Hair Styling
Distributor: Beauty Quest Group
205 Shellhouse Drive
Rantoul, IL 61866

Validation Date: April 22, 2019
Emergency Contact Information: Poison Control Center (Medical)
(866) 366-5048

SECTION 2: HAZARDS IDENTIFICATION

"Consumer Products", as defined by the US Consumer Product Safety Act and which are used as intended (typical consumer duration and frequency), are exempt from the OSHA Hazard Communication Standard (29 CFR 1910.1200).

This SDS is being provided for safe handling and proper use of the product.

**This product is classified under 29CFR 1910.1200(d) and the Canadian Hazardous Products Regulation as follows:
Flammable Aerosols- Category 1, Gases Under Pressure- Liquefied Gas**

Label Elements GHS-US Labeling Hazard Pictograms (GHS-US)

Precautionary Statements

Prevention: Keep away from heat/sparks/open flames/hot surfaces and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use.

Response: Wash hands after handling

Storage: Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures exceeding 50°C/122°F

Disposal: Dispose of waste and residues in accordance with local authority requirements.

Hazards not otherwise classified: None known.

Signal Words: Danger

Hazard Statement:

Extremely flammable aerosol. Contains gas under pressure; may explode if heated.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Only hazardous constituents, in accordance with 29CFR 1910.1200 Appendix D and the Canadian Hazardous Products Regulation associated with the product are listed below

INGREDIENT	CAS NO.	%WT
Ethyl Alcohol	64-17-5	58 - 62
Isobutane A-31	75-28-5	14 - 18
Hydroflurocarbon 152A	75-37-6	12 - 16

SECTION 4: FIRST AID MEASURES**First aid measures for different exposure routes**

Eye Contact:	Rinse with water. Get medical attention if irritation develops and persists.
Skin Contact:	Wash off with soap and water. Get medical attention if irritation develops and persists.
Inhalation:	If symptoms develop move victim to fresh air. Get medical attention if symptoms persist.
Ingestion:	Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

Most important Symptoms and Effects:	Direct contact with eyes may cause temporary irritation.
---------------------------------------------	----------------------------------------------------------

Indication of any immediate medical attention and special treatment needed

Notes to Physician:	Treat symptomatically.
----------------------------	------------------------

SECTION 5: FIRE-FIGHTING MEASURES

Suitable extinguishing media:	Dry chemical. Water spray. Carbon dioxide (CO ₂).
Unsuitable Extinguishing Media:	Do not extinguish a leaking gas fire unless leak can be stopped.
General fire hazards	Extremely flammable aerosol.
Fire-fighting equipment/instructions:	Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

Specific Methods

Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers. In the event of fire and/or explosion do not breathe fumes.

Special protective equipment for firefighters:

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Specific hazards arising from the chemical:

Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions:

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources. Take precautionary measures against static discharges. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Environmental precautions:

Avoid discharge into drains, water courses or onto the ground.

Methods and material for containment and cleaning up

Methods and materials for containment and cleaning up:

Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, ect.) away from spilled material. For waste disposal, see section 13 of the SDS.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling

Advice for safe handling:

Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment

used when handling the product must be grounded. Do not re-use empty containers. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Conditions for safe storage, including any incompatibilities: Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122°F. Do not puncture, incinerate, or crush. Do not handle or store near an open flame, heat, or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store away from incompatible materials (see Section 10 of the SDS).

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines: Not Available
OCCUPATIONAL EXPOSURE VALUES: Not Available
Exposure controls - Engineering Measures: Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels to an acceptable level.

Personal Protective Equipment

General Hygiene Considerations: When using, do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Eye Protection: Wear safety glasses with side shields (or goggles).
Hand Protection: Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.
Skin and Body Protection: Wear suitable protective clothing.
Thermal Protection: Wear appropriate thermal protective clothing, when necessary.
Respiratory Protection: If permissible levels are exceeded use NIOSH mechanical filter/organic vapor cartridge or an air-supplied respirator.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance (physical state, color, etc.): Aerosol
Upper/lower flammability or explosive limits: Not Available
Not Available

Odor:	Light Floral
Vapor pressure:	Not Available
Odor threshold:	Not Available
Vapor density:	Not Available
pH:	Not Available
Relative density:	Not Available
Melting point/freezing point:	Not Available
Solubility(ies):	Not Available
Initial boiling point and boiling range:	Not Available
Flash point:	< -50 °C
Evaporation rate:	Not Available
Flammability (solid, gas):	Not Available
Partition coefficient: n-octanol/water:	Not Available
Auto-ignition temperature:	Not Available
Decomposition temperature:	Not Available
Viscosity:	Not Available

SECTION 10: STABILITY AND REACTIVITY

Reactivity

No Specific test data to reactivity is available for this product of its ingredients.

Chemical Stability

The Product is stable.

Other

Possibility of Hazardous reactions:	Hazardous polymerization does not occur.
Conditions to Avoid:	Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible Materials:	Strong oxidizing agents.
Hazardous Decomposition products:	No hazardous decomposition products are known.

SECTION 11: TOXICOLOGICAL INFORMATION

Product Information - Information on likely routes of exposure

Inhalation:	
Skin contact:	No information available
Ingestion:	No information available
Eye contact:	No information available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Acute toxicity:	No information available
Skin corrosion/irritation:	No information available
Serious eye damage/eye irritation:	No information available
Skin sensitization:	No information available
Respiratory sensitization:	No information available
Germ cell mutagenicity:	No information available
Neurological Effects:	No information available
Reproductive toxicity:	No information available
Developmental toxicity:	No information available
Teratogenicity:	No information available
STOT - single exposure:	No information available
STOT - repeated exposure:	No information available
Target Organ Effects:	No information available
Aspiration hazard:	No information available
Carcinogenicity:	No information available

SECTION 12 ECOLOGICAL INFORMATION

Ecotoxicity

The product is not expected to be hazardous to the environment

Persistence and degradability:	No information available
Bioaccumulative potential:	No information available
Mobility:	No information available
Other adverse effects:	No information available

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods

Disposal Methods:	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate, or crush. Dispose of contents/container in accordance with local/regional/national/international regulations.
Contaminated Packaging:	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.
California Hazardous Waste Code (non-household setting)	331

RCRA Hazard Class: Not applicable

SECTION 14: TRANSPORT INFORMATION

North American Ground Transportation

DOT Classification:

UN Number UN1950
UN Proper Shipping Name Aerosols, flammable (each not exceeding 1 L capacity)
Transport Hazard Class 2.1

IATA-DGR Classification:

UN Number UN1950
UN Proper Shipping Name Aerosols, flammable
Transport Hazard Class 2.1

IMDG Classification:

UN Number UN1950
UN Proper Shipping Name AEROSOLS
Transport Hazard Class 2.1

SECTION 15: REGULATORY INFORMATION

U.S. Federal Regulations

TSCA 8(a) CDR Exempt
Exempt/Partial exemption:
United States Inventory Not listed
TSCA 8(b):
SARA 313 Not applicable for consumer use
RCRA Code: None required
CERCLA Not applicable for consumer use
Clean Air Act, Section 112
Hazardous Air Pollutants Not applicable for consumer use
(HAPs) (see 40 CFR 61)
U.S. State Regulations (RTK) Not applicable for consumer use
Food and Drug Administration The product described in this Material Safety Data Sheet is regulated under the
(FDA) Federal Food, Drug, and Cosmetics Act and is safe to use as per directions on container, box or accompanying literature (where applicable)
California Proposition 65 This product is not subject to warning labeling under California Proposition 65

Canada

WHMIS (Canada) Not Controlled under WHMIS (Canada)
Canadian NPRI The following components are listed: None
CEPA Toxic Substances The following components are listed: None
Canadian inventory The following components are listed: None

This product has been classified in accordance with the hazard criteria of the Controlled Products regulations and the SDS contains all the information required by the Controlled Products Regulations.

Mexico

Classification	None found.
