SECTION 8. Exposure Controls/Personal Protection

This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. For non-household settings use safety glasses or safety goggles; use gloves and other protective clothing to prevent skin contact. Always follow good hygienic work practices. This product will stain surfaces on contact.

SECTION 9. Physical and Chemical Properties:

Cream Colorant:

Density: 0.98....1.20 g/cm³

pH value: 3.5....5.0

Viscosity: 150,000...250,000 mPas

Consistency: Creamy

Homogeneity: Homogenous

Odor: Characteristic

Color:

Shade

Natural Black

Dark Brown

Medium Brown

Light Brown

Color

Colorless to bluish-grey transparent gel

Yellow transparent gel

Yellow transparent gel

Yellow transparent gel

Form: Transparent gel

Gel Activator:

Density: 0.97...1.10

pH Value: 9.0....10.0

Consistency: Gel

Homogeneity: Homogenous, small air bubbles may occur

Odor: Characteristic

Color: Clear yellow

Form: Liquid

Specific Gravity: 1.002 – 1.010

Solubility in water: Soluble

SECTION 10. Stability and Reactivity

Reactivity: N/A

Conditions to avoid: Direct heat

Minimum durability before first opening: 30 months

Minimum durability after first opening: 6 months

Durability is determined under the recommended storage conditions

SECTION 11. Toxicological Information

Silver Nitrate:

Oral (LD₅₀); Acute: 1173 mg/kg (Rat), 50 mg/kg (Mouse), 473 mg/kg (Guinea Pig) = At 100% product contains < 5%

This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Finished product is not expected to have chronic health effects. This product contains ingredient which may cause skin irritation on certain individuals and a preliminary test according to accompanying directions should first be made.
