16. OTHER INFORMATION

HEALTH EFFECTS FROM EXPOSURE

It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a Babe Original report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES

The recommendation for protective equipment contained within this Babe Original report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

QUALITY DECLARATION

At Babe Original, we firmly believe that quality control is of the utmost importance and it is imperative that the most meticulous tests are carried out for every product in our range. Uncompromising quality is a responsibility which we take seriously.

Babe Original's commitment to quality is coordinated by our in house chief chemist and quality control operator. The most rigorous processes are implemented to determine the purity and potency of sourced oils and raw materials. By maintaining this intense level of quality control and developing new methods and techniques, Babe Original can ensure superior quality products.

MANUFACTURED PRODUCTS INGREDIENT DISCLAIMER

As the availability of ingredients and raw materials is not always certain whether due to changes in nature or otherwise, Babe Original reserves the right to substitute alternate ingredients/raw materials in the manufacturing of its products in order to maintain supply to its customers.

ANIMAL TESTING POLICY DECLARATION

Babe Original does not test finished products on animals, neither initially or as a routine test (nor by outside sources on our behalf).
